

Join at www.genetics.org.uk

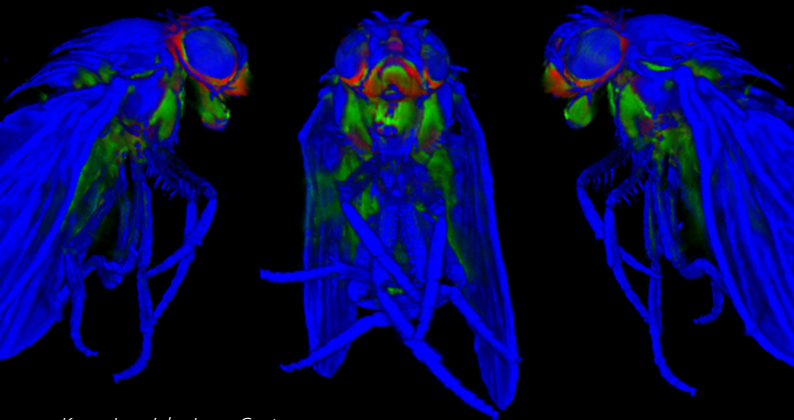

The Genetics Society is a Learned Society that brings together and supports researchers in the UK studying genomes, genes and gene action. Keep up to date with the latest developments in genetics research by joining now.

MEMBERSHIP
AVAILABLE FROM
£5

Whatever your career stage, enjoy the benefits:

- Undergraduates – summer studentships and participation in annual undergraduate workshop.
- PhD students and postdocs – training grants and sponsored travel to international conferences, Society meetings, and student workshops
- Research Supervisors – summer students, discounts to all of our meetings throughout the year and opportunity to co-organise meetings.

Members receive free biannual newsletters and discounted access to our Journals: *Heredity* and *Genes and Development*.

Karen Lee, John Innes Centre
